BATHROOM LAUNDRY & WC

Heat 'n' Vent 4 Pro Series

40% increased performance on the old Heat nVent model enables the Heat nVent 4 Pro Series to be used in larger bathrooms and the stylish facia blends easily into most décor.

Features of the Heat nVent 4 Pro Series include;

- High efficiency centrifugal fan incorporating a unique anti-condensate design feature
- Tilttable halogen downlight to provide a whiter, brighter light and the ability to direct the lighting in your bathroom.
- Temperature interlocked for peace of mind
- Easily installed in confined spaces with only 170mm of space required to fit between floors in a multi-level home or in a flat roof situation.
- Larger 120mm diameter flexible duct to provide increased airflow.
- Fully complies to Australian & New Zealand Standard (AS/NZS) 60335.2.80

Heat 'n' Vent 2 Pro Series

40% increased performance on the old Heat nVent model enables the Heat nVent 2 Pro Series to be used in smaller bathrooms and the stylish facia blends easily into most décor.

Features of the Heat nVent 2 Pro Series include;

- High efficiency centrifugal fan incorporating a unique anti-condensate design feature
- Tilttable halogen downlight to provide a whiter, brighter light and the ability to direct the lighting in your bathroom.
- Temperature interlocked for peace of mind
- Easily installed in confined spaces with only 185mm of space required to fit between floors in a multi-level home or in a flat roof situation.
- Larger 120mm diameter flexible duct to provide increased airflow.
- Fully complies to Australian & New Zealand Standard (AS/NZS) 60335.2.80

Extract 'a' Lite

EXTRACT 'A' LITE is a distinctive light incorporated into a circular diffuser, suitable for showers and bathrooms. The three attractive **EXTRACT 'A' LITE** finishes, white, chrome and brass, will enhance any shower or bathroom with a warm glow of soft light. The **EXTRACT 'A' LITE** can be used within the splash area of the shower or bath and is powered by remote S.E.L.V (Safety Extra Low Voltage) isolating transformer.

Available as a single unit or in complete kit form. Each Showerlite kit includes a white showerlite unit, centrifugal in-line fan, 3 metres of flexible ducting, 1 S.E.L.V transformer, exhaust vent and mounting hardware.

Pro-Series Extract 'a' Lite

The new **PRO SERIES EXTRACT 'A' LITE** fan kit from Manrose® uses highly efficient in-line fans that are designed to provide higher levels of extractions for larger bathrooms.

The NEW stylish design downlight is available in white or satin finish to compliment your bathroom decor.

Each **PRO SERIES EXTRACT 'A' LITE** come complete with an electronic transformer in the kit to operate the 12V downlight.

Light 'n' Vent

The **LIGHT 'N' VENT** has been designed to be ducted (as per Australian Standard requirements), resulting in a product supplied which is very quiet in operation and is inclusive of: - ducting, a soffit mounted grille, dual switch plate, lamp and all fittings.

The centrifugal fan design provides for building code compliance and ease of installation. The horizontal duct take off and 100mm diameter ducting make it easy for the installer to work in confined spaces and as a result the unit can even be installed between floors where 250mm joists are used. Dual switching is included, providing for independent control of your bathroom ventilation and lighting requirements.

Whispervent Ceiling Fans

The **WHISPERVENT** Extractor is a centrifugal ceiling fan designed for use where installation space is limited. The **WHISPERVENTS'** 100mm duct outlet enables this fan to be installed into confined spaces and is available in white finish but also available in stainless steel finish as an option. Integral ball bearings mean a long life of service and a quieter operation. The system is whisper quiet, is easy to mount and an IP rating to IPX4 ensures a straight forward installation. With the **WHISPERVENTS'** centrifugal fan design, longer duct runs can be added to the system while still maintaining high levels of extraction. The **WHISPERVENT** is suitable for extracting air from bathrooms, kitchen, laundry's or Lavatories and is supported by a two year warranty.
