SMARTER HOMES MADE SMARTER

AIR CONDITIONING

TEMPERATURE CONTROL - ZONE CONTROL - SENSORS - CONTROLLERS

Westaflex CONNECT works with most major brand air conditioners to offer you complete control over your system. Using the Connect touch screen technology you have the ability to adjust the air distribution, temperature and airflow to any room. You can control up to 14 zones all with temperature control. The Wi-Fi and 4G enabled Connect App allows you to also take control of your air conditioning system using your smart phone or tablet. Westaflex CONNECT works with both new and existing systems*, so the benefits of Westaflex CONNECT are available to most homes.

LED LIGHTING

DOWNLIGHTS - BULBS - 100 SHADES OF WHITE - 16 MILLION COLOURS

Westaflex CONNECT allows you to set the lighting to millions of different colours to suit the mood you wish to create. Have a shade of bright white while you work, then change it to a shade of warm white to relax while watching your favourite movie. You can pick from 100 shades of white and 16 million colours. You can set a schedule for your lights to go on and off when you are away on holidays, making sure any would be thieves are deterred and look for an easier target. The Wi-Fi and 4G enabled Connect App allows you to also take control of your lighting and choose a range of features using your smart phone or tablet.

GARDEN IRRIGATION

IRRIGATION CONTROLLER - WEATHER INTERFACE

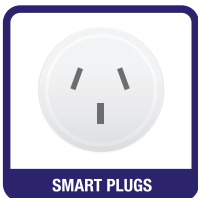

Westaflex CONNECT allows you to attach the irrigation control system and water your garden at anytime from anywhere in the world. The simple to use system uses IFTTT to allow you to water your garden based on the weather forecast in your area, which will save you time and money but most importantly will save precious water. The CONNECT irrigation controller comes standard with 8 stations however this can be increased to a maximum of 24 stations if required.

GAS DUCTED SYSTEMS

TEMPERATURE CONTROL - ZONE CONTROL - SENSORS

Westaflex CONNECT makes it easier to control your gas ducted heater and / or add on air conditioning system*. Using the Universal module, Westaflex CONNECT allows system integration with your existing heater. Once connected, all the features of Westaflex CONNECT are then at your fingertips. Just like the options available as mentioned above in the air conditioning section, control the zones, the temperatures, the airflow the on / off scheduling of your system.

SMART PLUGS

SMART PLUGS - APPLIANCE CONTROL - ENERGY MONITORING**

Westaflex CONNECT smart plugs gives you the power to control or manage your domestic appliances from anywhere using your smart phone or tablet. Turn on your kettle using the schedule to have boiling water for your coffee or tea when you wake up, turn on your bed side light before you go to bed and then schedule it to go off at the time you desire. If you can plug it in, then you can control when it goes on and when it turns off. If you want to make adjustments, just open the app and adjust your schedules, its that easy.

GARAGE DOOR CONTROL

GARAGE DOOR CONTROL

Coming soon, Westaflex CONNECT will allow you to open and close your garage door using your smart phone or tablet. No more will you be locked in to expensive controllers that need batteries replaced, no more will you have to replace expensive controllers because the buttons cease to work. Just open the App and open or close the door. More details will be available soon on the garage control option, check back with your Westaflex Uniflex sales office for details.

* Check with your local Westaflex / Uniflex sales office to confirm compatibility before purchasing.

** Energy Monitoring coming soon.
