

**CONNECT**

# A NEW LEVEL IN HOME COMFORT

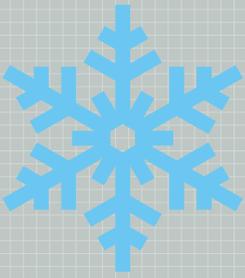

**WestaflexCONNECT is so much more than just your air conditioning system.**

You can connect items like smart lights, your garden irrigation system, garage door control and any household appliance once you plug it into a Westaflex **CONNECT** wireless Smart Plug. You control everything through your smart phone or tablet.

**CONNECT** even works with Google Home.

# AIR CONDITIONING

WITH WESTAFLEX CONNECT, YOU DON'T JUST RUN YOUR

## WITHOUT WESTAFLEX CONNECT

With the standard controller supplied with air conditioning systems, there is not usually the option to temperature control all the different zones of the home or office. Normally the controller is located in the main living area or maybe even the hallway. This is where the temperature for your comfort is then controlled, no matter what time of the day it is or what the weather is doing outside.

# FOR AIR CONDITIONING SYSTEM, YOU CONTROL YOUR CLIMATE

## WITH WESTAFLEX CONNECT

With Westaflex CONNECT you can temperature control up to 12 touchscreen controllers or 14 zones\* of your home to different temperatures and then program all these to be at the right temperature for the time you are going to be occupying these rooms. Also, if you choose the occupancy sensor option CONNECT can even sense your movement so after a period of time or no movement CONNECT will shut the zone off thus maximising savings on your air conditioning system and your wallet.

With CONNECT you can also program up to 9 “favourite” programs to suit your individual lifestyle. You can even schedule the different zones to come on and off at different times. You can do all this control direct from the touchscreen(s) or from your smart phone or tablet.

# LED LIGHTING

**WESTAFLEX CONNECT LIGHTING  
CAN CHANGE YOUR VISUAL PERSPECTIVE  
TO SUIT YOUR MOOD**

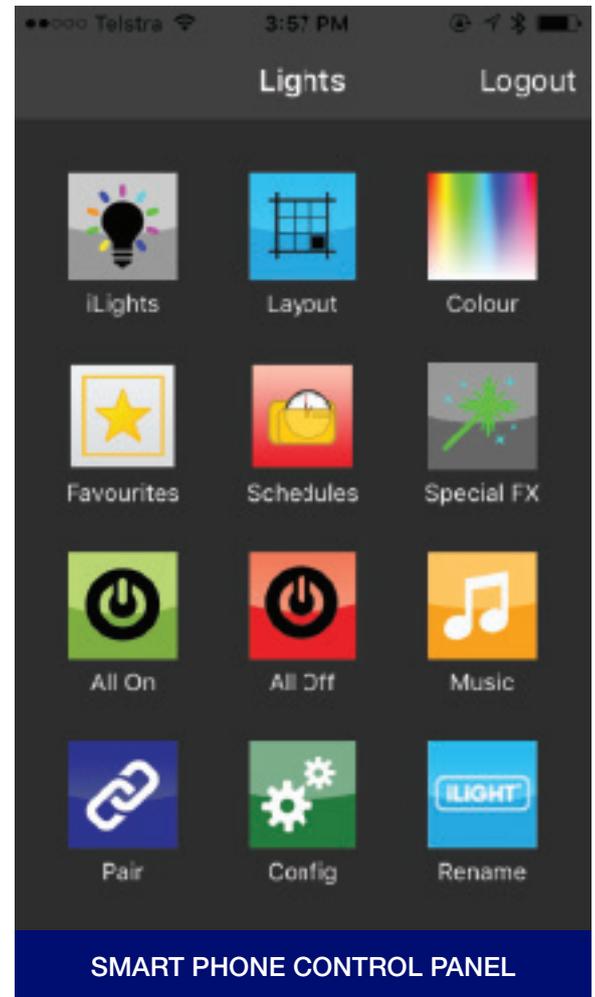

Westaflex CONNECT lighting is a wireless system that can be operated from the CONNECT touchscreen or via your smart phone or tablet. CONNECT lighting comes in either downlight or bulb forms. The downlights come in three different colours, White, Black and Silver and the bulbs are either a Edison Screw or Bayonet base.

CONNECT lighting offers you 16 million colours and 100 shades of white to choose from. You get all of this as well as the knowledge that the lights are up to 80% more efficient than a standard globe.

You can schedule your lighting to come on in the mornings in the colour of your choice. They can then turn off automatically so they are never left on accidentally.

Home security with CONNECT lighting is also easy. Set your lights to holiday mode and the lights will switch on and off to make it appear that you are home. You can also change the programs from anywhere in the world via the App.

Having a party, use the special effects option and set up your lighting to operate as per your requirements. Have them rotate through the colour range to enhance your party experience.

**BAYONET BULB**

# GARDEN IRRIGATION

WHETHER YOU ARE HOME OR AWAY YOU CAN CONTROL THE IRRIGATION OF YOUR GARDEN WITH WESTAFLEX CONNECT

Westaflex CONNECT can control your irrigation requirements via the iDrate system. Control up to 8 stations as standard or expand to up to 24 stations for the most demanding gardens. Manage your watering requirements while on holidays with CONNECT. Don't let your precious plants become stressed or worse die because you couldn't water them enough.

All you need to do is log in via the app and start watering to your gardens requirements. Better still, let the weather water your plants.

Simple to use via IFTTT, the watering will adjust based on the weather forecast for the area you live in. The best part of this feature is it save your money and it saves the planet of wasting a precious resource.

CONNECT iDRATE CONTROL

# SMART APPLIANCES

TURN EVERYDAY APPLIANCES INTO SMART APPLIANCES...EVEN YOUR GARAGE DOORS

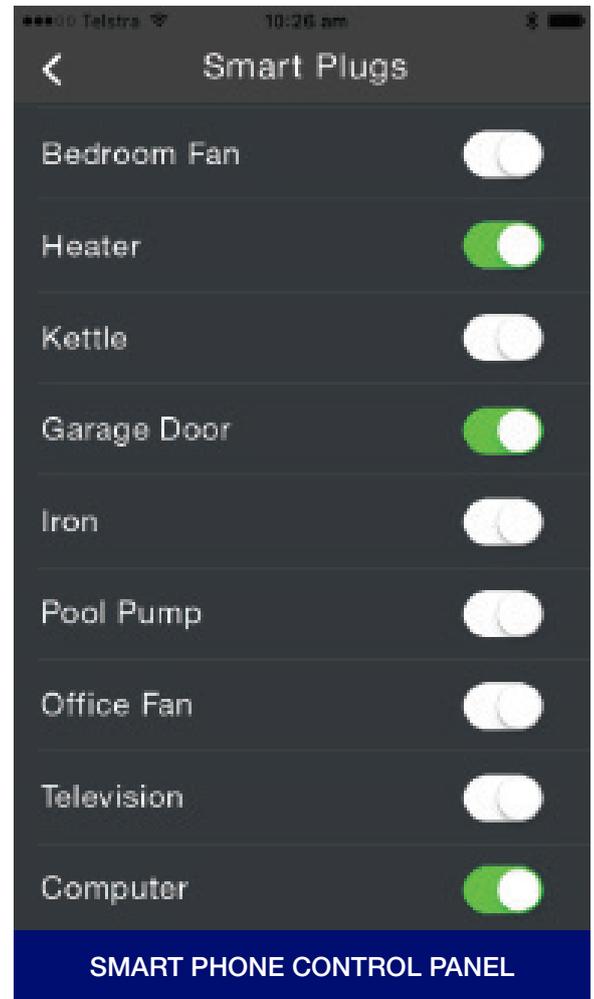

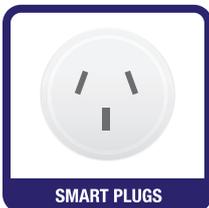

Plug an ordinary appliance into Westaflex CONNECT and it immediately gives you control over that appliance from anywhere in the world.

Never have that sinking feeling again that you may have left an appliance on when it should be off. Simply log on and turn it off remotely.

Home security is also increased, by turning on and off appliances to make it look as though you are at home when you are actually enjoying your holiday.

Garage door control is also available with Westaflex CONNECT\*.

Why constantly replace expensive opener controls that wear out. Replace your controllers and open or close your roller door with a simple tap on the CONNECT control screen.

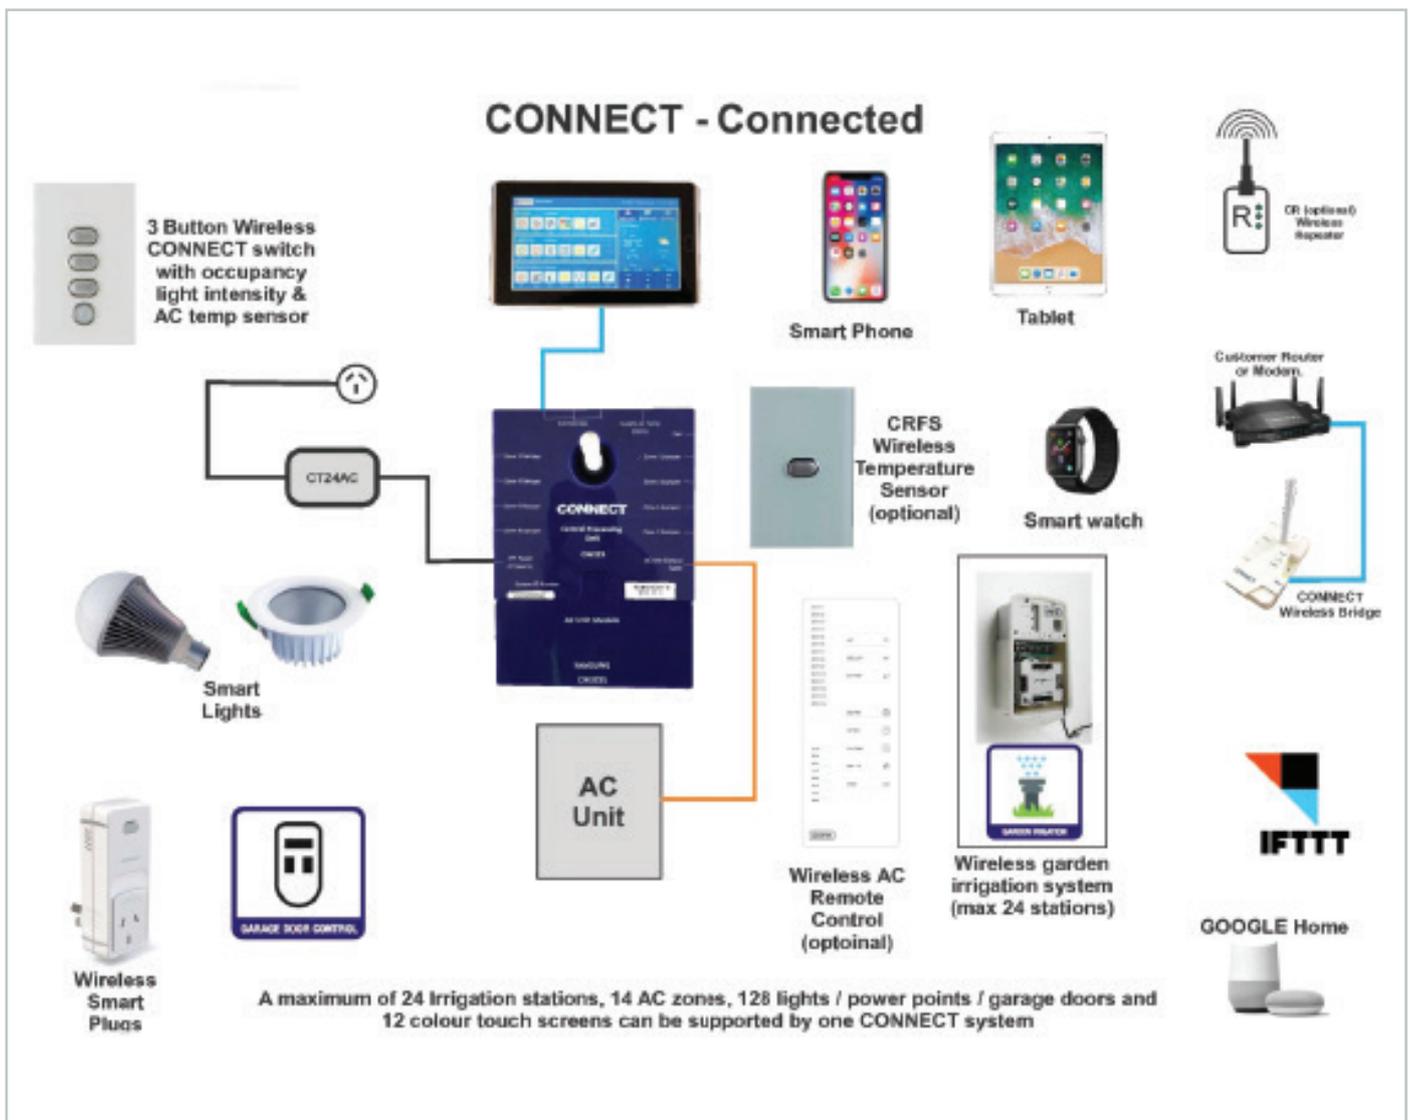

# WARRANTY

WESTAFLEX IS BACKED BY AN AUSTRALIA WIDE PRODUCT ONLY REPLACEMENT WARRANTY

For years Westaflex have only provided the absolute best products into the Australian marketplace, the majority of these are manufactured and / or designed in Australia.

We are confident that Westaflex CONNECT will perform as it is designed and engineered to do so for many years.

\* Product only warranty applies. For terms and conditions of warranty, please refer to the Westaflex website or the Westaflex product catalogue.
