

Zoning Solutions

Move your air where you want.

The Westaflex Colour "Touch" Controller (CTC) allows you to control the flow of air to different rooms within your home or apartment quickly, easily and with style.

The CTC is simple to install, variable damper positioning and control of up to 16 zones.

○ 2 Zone

○ 4 Zone

○ 8 Zone

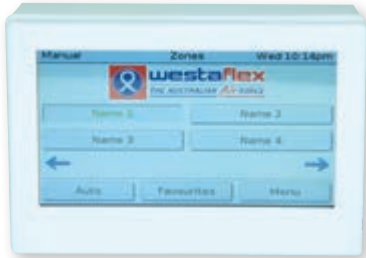

Other features of **Zoning Solutions** include:

- Large colour LCD touch screen
- Control of up to 16 zones with individual zone activation
- Customise zone names to suit your own personal preferences
- Four favourite settings allowing one touch selection of varying zone configurations
- Optional variable-opening zone control
- Ability to add a second touch screen enabling control of zones from two separate locations
- Low voltage (24V) RJ12 connections – no electrician required for installation
- Seven day, four periods per day time programming
