

UNIVENT CLASSIC

**Australian Made / Multi Direction
Ceiling Diffusion**

**Westaflex
has been manufacturing
the UNIVENT Ceiling
Diffuser range for use
in the homes and
offices of Australia
and abroad since 1990.**

**Westaflex - Family
owned and operated
since 1974**

- Manufactured in Australia
- Manufactured from UV stabilised HIPS polymers
- Injection moulded so no joints or seams visible
- Utilises high grade polymers so reducing the “cold bridging” effect when compared to metal diffusers.
- Directs air to multiple points in a room
- Adaptors quickly and easily “Snap” into position*
- Adaptors come complete with or without air adjustment dampers installed*
- Various style Cushion Boxes available to suit
- Available in a four sizes for use in the domestic market
